

Call for Abstracts

Abstract submission for the 2012 International Neuroethics Society meeting in New Orleans is [now open](#).

We welcome abstracts reporting recent results in the field of neuroethics and related topics. Investigators at any career stage are encouraged to submit abstracts. Selections will be made based on content, available space and overall balance. In 2011 over 50 posters were selected for display. Participants may submit the same abstract for the INS meeting as for the Society for Neuroscience Meeting.

Five submissions will be selected for Oral Presentations. Two submissions will receive a \$250 Travel Award. Twenty-five abstracts will be published in the online version of *American Journal of Bioethics - Neuroscience (AJOB-N)*.

Abstracts should be up to 500 words (including title, author names and affiliations and references if applicable). At least one author must be an INS member and register for the Annual Meeting. Abstracts will be reviewed by the INS Program Committee. Work presented in abstracts must be in compliance with local IRB governance and comply with [INS Abstract Submission and Disclosure Statement](#).

FORMAT your abstract as follows:

- (1) All text left justified;
- (2) Title in capitals;
- (3) Authors' initials and surnames, with superscripts for institutional affiliations if more than one;
- (4) General question or issue being addressed should be stated at outset;
- (5) References optional and no more than 5, formatted for AJOB-N.

The deadline is 5:00 p.m. EDT on JULY 2, 2012. Submit your abstract to administrator@neuroethicssociety.org.

After submitting, you will receive an email to confirm that your abstract was received. Incomplete submissions will not be reviewed.

Accepted presentations will receive notification by August 1.

POSTER SPECIFICATIONS: When preparing your poster for the meeting, please keep the dimensions within 4 ft x 4 ft or 1.1 m x 1.1 m. The title should be large enough to read from several yards away. Other suggestions: include figures if applicable, use bulleted points as much as possible and avoid long sections of text.

The International Neuroethics Society is an interdisciplinary group of scholars, scientists, clinicians and other professionals who share an interest in the social, legal, ethical and policy implications of advances in neuroscience. Our mission is to promote the development and responsible application of neuroscience through interdisciplinary and international research, education, outreach and public engagement for the benefit of people of all nations, ethnicities, and cultures.
