

Call for Papers and PubMed Indexing– AJOB Neuroscience

The *American Journal of Bioethics Neuroscience* is the official journal of the [International Neuroethics Society](#).

[AJOB Neuroscience](#) provides a comprehensive, peer-reviewed resource for scholars, practitioners, and others interested in ethics and the brain sciences. We interpret the scope of the field broadly, and seek wide-ranging contributions exploring the ethical, social, and legal dimensions of neuroscience.

Over the course of 10 volumes, the Journal has become a leading outlet for high quality neuroethics scholarship and has provided high visibility to our global contributor base with more than 20,000 article downloads annually.

We are excited to announce that *AJOB Neuroscience* is now indexed in [MEDLINE/PubMed](#). In recognition of the milestone, the Journal is issuing a Call for Papers. For more information on the recently-expanded menu of article styles accepted and for instructions on how to submit a manuscript, please see our [instructions for authors](#).

[AJOB Neuroscience](#) editors welcome submissions throughout the field of neuroethics but are particularly interested in the neuroethics of the following topics:

- Machine learning, artificial intelligence, and robotics
- Digital phenotyping
- Novel issues in psychiatry
- Evolving definitions of consciousness and brain death
- Free will and the neural basis of decision-making
- Feminist Neuroethics
- Neurodiversity
- Neuromarketing, neuro-entrepreneurship, and neuroscience startups
- Neuroethics education, training, and engagement
- Neuroengineering and genetic manipulation
- Neurohype and neuroskepticism

Pre-submission inquiries are welcome at neuroeditor@bioethics.net. Articles can be submitted to *AJOB Neuroscience* via [ScholarOne](#).

Stay tuned as we plan to update our Editorial Advisory Board and Associate Editor teams.
